PRIZE WINNERS THIS WEEK

Class 1: Alfie for being kind and Paige for fantastic homework.

Class 2: Rhys for hard work with his phonics.

Class 3: Aurora for fantastic work effort and beautiful writing.

Class 4: Keeley and Sebastian for excellent class work and homework.

Class 1: Welcome back everyone and the sun has decided to join us too-wonderful! We have had lots of special days this week, one of which was her majesty's 95th birthday-hence the crowns. Our children enjoyed finding out about the Queen's family and some of the royal children around their own age. Next it was Earth day-please don't be offended when they tell you to "tidy up" or recycle something. We discussed the importance of plants and animals, and how plastic is here to stay and how the scientists need to find cleaner processes and research bio degradable plastics. Then today, we found out about St George the patron saint of England. The children enjoyed the video story of how George defeated the dragon and saved the town.

Class 2: This week we have begun our new topic- "SOUND and MUSIC". We have been learning about the river Danube and the blue Danube waltz by Strauss. We have listened to and written about the story of The Magic Flute by Mozart. In English we performed the Pied Piper poem with sound effects and have written our own version of the story with lots of describing words. In math's we have been looking at odd and even numbers and column addition.

Class 3: This week class 3 have worked super hard. We looked at our new topic (plants, animals and mini beasts) and brainstormed ideas of what we could learn. We have written super letters for her majesty the Queen's birthday, which I will send this weekend! I'm sure she will enjoy reading them! The children have all done well recapping their maths skills. Well done class 3! For our homework we will be starting our new reading comprehension as a class, all details are in the children's work packs. They will have paper copies of their homework (spellings and times tables) in case of technical difficulties or to earn extra house points.

Class 4: The juniors have had a very busy week starting our new topic of Plants, animals and mini beasts! We have learned about sorting keys, Charles Darwin and evolution as well as carrying out a survey of the school's garden flora and fauna. In the upcoming weeks we are planning to extend our surveys to the coastal path, Parton beach and the cycle track hedge rows. Please check you have a pair of wellington boots and a waterproof coat (that still fit you) ready for our walk about lessons. Please could you bring in a carrier bag with you on Monday if you haven't already brought one .Thankyou.

General information

Just a note to say that we will be starting swimming and judo lessons the week after half term and will be putting more information up on the newsletter in the next upcoming weeks. This is covid dependent.
