

Friday 2nd February 2018

WINNERS THIS WEEK

Class 1: Hannah for becoming so confident with her speech

Class 2: Kacie Moffatt for her developing language skills

Class 3: Upper Junior Ella for her excellent use of speech punctuation

Lower Junior: Daniel McGuirk for his knowledge of

climate change

Class 1

Reception children have been looking at 3-D shapes and gaining an understanding of what this involves. Ask your child if they can spot 3D shapes in the environment whilst you are out-and-about. They have also been learning how to build sentences and although they are having support in this area they are doing very well. Year 1 are still excited about 'Pirates' and are still enjoying writing about them. They have also been learning about 'time' and have been reading on the hour and half-past the hour. Practice with your child over the weekend and see how they get on. We are all looking forward to our Rum Story trip on Tuesday, please can you ensure your slip and payment is returned to the office no later than Monday 5th February. Sadly we say goodbye to Miss Fitzmaurice this week, we have enjoyed having her with us these last few weeks and she has had a positive influence on the pupils whilst she has been with us. We wish her every success as she moves on to another school and continues with her training.

Class 2

Class 2 have been developing their non-fiction skills writing facts and figures, labels, headings, blurbs and glossaries. In maths they have been learning about tessellating shapes, ordering 4 digit numbers and reading digital times in 15 minute intervals

Class 3

Class 3 have enjoyed an interesting visit from 'Sam' who works for United Utilities who told us all about saving water, why it's important to do so and what we can do to save it. This links nicely to our science project on weather and climate and our Terrific Scientific investigation in to how we can save power. The juniors are currently monitoring the power usage within school and making sure we aren't wasting power by leaving lights on when we don't need them and other things like that, and telling us when we need to 'switch it off'. We have posters everywhere within the school that the juniors have made to remind us. No doubt they will be watching whether power is being wasted at home—you have been warned!

DATA SHEETS

Please fill in and return the data collection sheet you have been given with this letter and return to school as soon as possible so that we can ensure we have all the appropriate details for your child. These sheets will be kept within school and referred to for contact details should there be an emergency so please make sure all details are correct. We need one for each of your children

WARNING

There has been a warning issued by the Kent Police Force asking people to avoid the 'Roblox' game, as strangers have been contacting children and making inappropriate comments and requests. Please ask your child if they are familiar with it and advise them to delete the game if they have it.

DIARY DATES 2018
